

## Instruções de Construção

### “O Tanque”

## 1- O Chassis

- 1 **1x16** 4x **Conector Preto** 4x
- 2 **8** Eixo 4x **8x** 8x

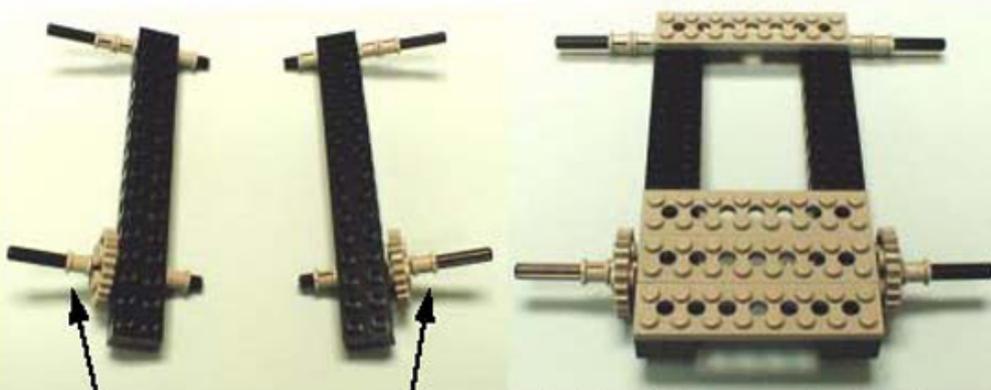

Primeiro Buraco da Esquerda

Os conectores pretos servem para fixar os dois "barrotes"

- 3 **Roda Dentada 24** 2x **2x** 2x

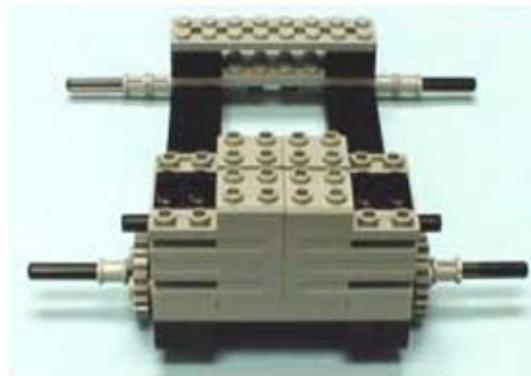

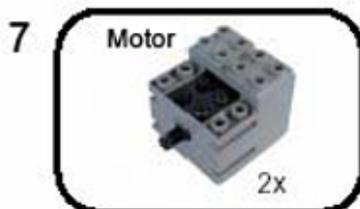

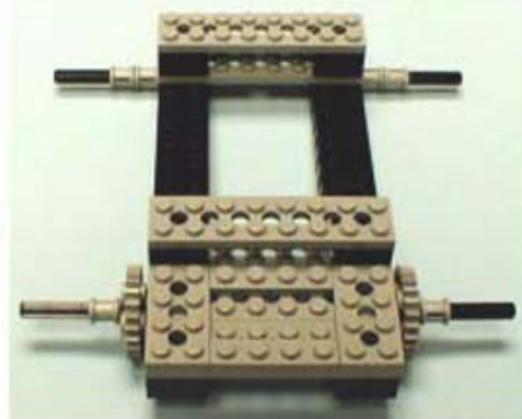

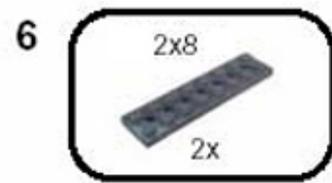

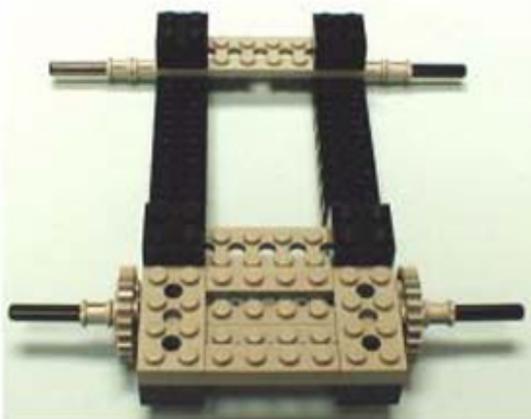

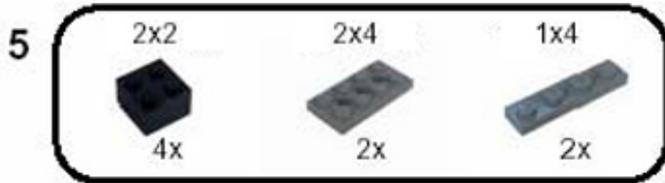

- 4 **Placa 2X8** 4x

Nota: Certifique que os eixos giram livremente

Os "barrotes" mais largos e as placas dão uma maior força ao chassis

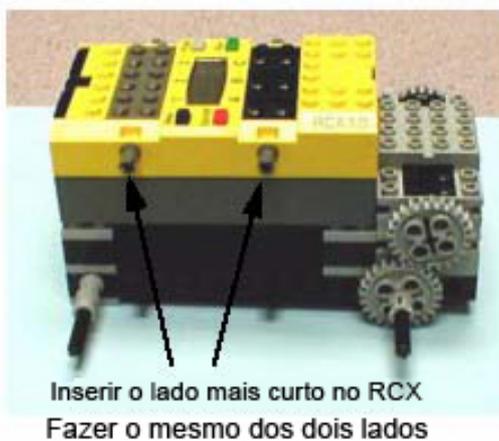

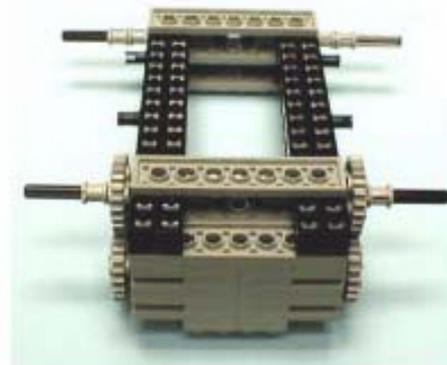

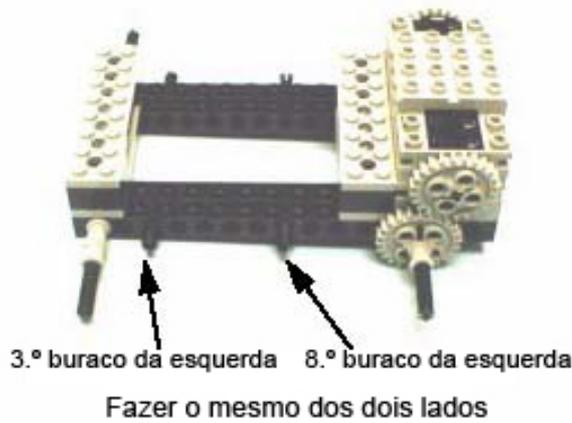

## 2- Os Motores

Fazer o mesmo do outro lado

## 3- O "Cérebro"

## 4- As Rodas

13

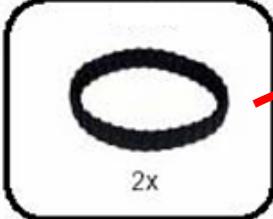

Roda Branca	Roda dentada 16
	
4x	2x

Roda dentada 16

Fazer o mesmo dos dois lados

14

2x

15

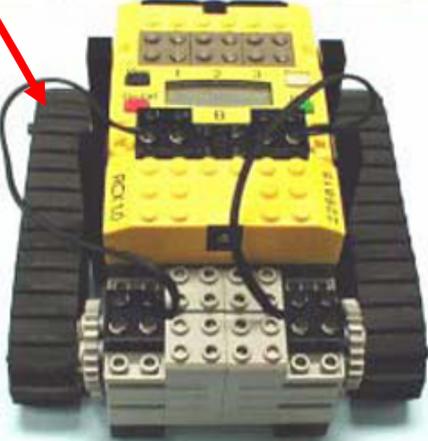

Cabo para motor

2x

Fazer o mesmo dos dois lados

Ligar os cabos ao motor como mostra a figura
